

REDCLIFF REVIEW

OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

VOLUME 4

REDCLIFF, ALBERTA, FRIDAY, MAY 1, 1914.

NUMBER 18

REVIEW REPORTER LOST IN REDCLIFF

After a Miraculous Escape from
Serious Injury, Wanders About
the Residential District—Lost.

To be absolutely and completely lost in Redcliff might seem to the average citizen in a town of four thousand inhabitants quite impossible but nevertheless the editor of this paper had that novel experience last Monday night. He attended the Council meeting in the evening and heard several sessions of the great work to be undertaken by that body this year, and after the meeting started for home in Arlington about 11 o'clock. Everything went along nicely till he reached the crossing where the spur track crosses Broadway. The night was as dark as black cat, and not being familiar with the new idea of placing street lights where selling is good and no lights where man traps are placed, we were travelling along with all sails set, when down we went, heels over apple cart, and it in a heap at the bottom of three steps with a steel rail for a pillow. We do not carry the type in stock to print what we said to ourselves for the next few minutes. But we were trying to figure out with a clear conscience is that if the council who is responsible for the placing of street lights could not get along about that time we wouldn't have left enough of him together to hold an inquest on. Just why there should be a man killed on the main heart of a town where gas is given away with no light within a block of it was what we were trying to figure out as we started on our homeward way. But the worst was yet to come as we got beyond the street lights limit and then we were up against it properly. It was dark indeed, but not as it was darker. The biggest sky scraper in New York could not have been seen if it was only two feet away. The foolish virgin was in paradise compared with our position, for the next half hour. For that length of time we groped around until finally a dim light in the distance attracted our attention. Talk about the risk of a hungry steer to hay stack, but the way we went to that light would make the steer look like a dime in a new deck. We thought it was home, but, alas, the only welcome we got was a vicious growl coming from some place in the darkness. Our first impulse was to run our arm down the brute's mouth, catch him by the tail, pull him in and then we were alone running the other way, but just as we were about to start at it we heard a real live human voice. "Ye gods, what welcome news. On approaching in the direction from which the voice came we were relieved to see one of the kindest women I have ever been my pleasure to meet. She assured us we were still in Redcliff and our home was only a few blocks away. To make a long story short, we made it and dropped anchor for the night, but before doing off into slumber, and we convinced ourselves that what Redcliff needs as badly as a sewerage system and city hall is more street lights out there if we are going to be asked to report any more midnight sittings of the Town Council.

Local Odd Fellows

Attend Divine Service

The members of the local I. O. O. F. lodge celebrated the anniversary and the order by attending the Baptist service last Sunday evening. The procession was formed at the lodge room, where over 150 Odd Fellows and Rebekahs, headed by the Redcliff Citizens' Band, filed in line and proceeded to the A. M. E. Theatre, where the service was held. The line of march was along Broadway to Fifth street, to Third street, and down Third street to the theatre.

The building was packed to the doors and a large number were turned away. The pastor, Rev. Hinkle, preached a most fitting sermon, which was thoroughly enjoyed by the assembly and the singing added greatly to the success of the service.

NEW LODGE PARLORS

I wish to announce that the new lodge parlors in the lodge building on Third street, are now finished and open for inspection. The room is newly decorated and well furnished, and has a kitchen and a bar in connection. For further particulars apply to J. C. Reid.

Clay Products Company Now in Operation

Has Big Order for Pressed Brick
By Order Assured—Thirty
Men at Work.

The Redcliff Clay Products Company opened up for business last week with about thirty men, and judging from orders already in hand and prospects for more in the near future it will only be a matter of a few days till this industry will be running at full capacity. Mr. Bryant, manager of the company, returned Wednesday evening from Swift Current with orders for half a million of the Clay Products Company's pressed brick turned out by his plant. He reports that Swift Current is the most prosperous of the small cities in Saskatchewan and a large amount of building is being done there. While there Mr. Bryant attended a meeting of the Clay Products Company, impressed with the businesslike way in which they conducted the public business.

LIBERALS HOLD ANNUAL MEETING

Officers Chosen for the Year—Several
Short Speakers Listened To.

The Redcliff Liberal Association held its annual meeting last Monday night in executive committee to make a good turn-out, considering the fact it was only a business meeting, fully fifty members were present. In the absence of President Ireland, R. S. Hodge took the chair and stated the object of the meeting, after which he called upon Mr. William Dundon of Medicine Hat, who gave a talk on organization. At the conclusion of Mr. Dundon's speech the chair was passed to Mr. Hodge, who was nominated. A. J. Hall was then asked Mr. Hodge was elected. Several were nominated for vice-president and after a ballot had been taken it was found that Mr. Dundon was elected by the voice and was therefore declared elected. The president was authorized to appoint an executive committee to consist of seven members. Mr. Hodge, the new president of the association, thanked the guests for electing him to the presidency and promised to do all in his power to make the association a success in the next Dominion election. Mr. Norman A. Wickery was then called upon, and he responded with an able address on the political situation of the day. He took the Borden government to task for not fulfilling its promise to the people of the Western provinces, and accused the party of favoritism and graft. He cited a case where the son of the party while at Ottawa, had been granted a home at Prince Rupert for \$10, which was shortly after subdivided and sold at \$270,000. He also showed where money had been unwisely spent by the government, and wound up by addressing to the Liberal policy of reciprocity. Mr. Wickery's talk was received and applauded.

Mr. C. B. Plingle, Redcliff's representative in the legislature, next spoke by giving an account of what the Sifton government had done for the people. He gave an account of his stewardship, citing several matters that he had brought up in the legislature in the interest of Redcliff. Mr. Plingle is a favorite with a Redcliff audience and was enthusiastically applauded. At the conclusion of Mr. Plingle's talk the meeting adjourned.

OVERLAND STONE
MAKING IMPROVEMENT
Big improvements are being made to the Overland Departmental store this week, a section in the rear of the store has been partitioned off for an office and a similar space has been set aside for a parcel room. A private sewerage system has been installed and a room is being fitted up as a toilet room for ladies. The addition is now almost completed and is being fitted up in most up-to-date city style. When all this work is finished this will be one of the best equipped stores in Western Canada.

COUNCIL ORDERS PLANS FOR NEW SEWER SYSTEM

Will Prepare for Construction at Once if Plans and Specifications Satisfactory.—Expect to Lay Trunk Line and Some Laterals This Summer.

WILL BUILD ADDITION TO PRESENT TOWN HALL.

Will Spend \$15,000 for Adding Another Story and Building
A Fire Hall.—Financial Assistance Given to
Band.—\$50,000 More for Improvements.

The regular meeting of the Town Council was held last Monday evening in the Council chamber. Mayor Bott and all the Councilors except Mr. Plath were present.

Minutes of last meeting were read and adopted. The business transacted out of the minutes of last regular meeting was dealt with.

The Secretary-Treasurer was authorized to procure the necessary assessment notices and have same sent out.

Regarding the matter of milk testing, the Secretary said he had written the Provincial Health Department and learned that the town by-laws as they now stand gave the Council power to proceed and have all milk tested, and have all milk vendors use sealed vessels for delivering milk. There was some discussion as to how the testing should be done, but Mayor Bott explained that the details would be worked out by the committee.

Conductor McLaughlin, who was appointed to make settlement with Mr. Hall for a horse which was injured while in pound, recommended the sum of \$75 be paid Mr. Hall. On motion of Messrs. Hodge and Lyndall the report was adopted and the Treasurer instructed to pay Mr. Hall the above amount.

A motion was unanimously passed

authorizing the Mayor and Secretary-Treasurer to sign a by-law for the borrowing of \$50,000 from the Royal Bank for current expenses, repayable on July 1, at 7 per cent. The by-law was given its first, second and third reading and passed.

The Mayor and Secretary-Treasurer were authorized to sign the agreement with the C. P. R. for the changing of the spur track from the south to the north side of Railway street, through the Clay Products Company's property.

The Secretary-Treasurer was instructed to have the town clerk bonded for \$5,000 with the J. L. Landis Company.

A communication was read from R. S. Warner on behalf of the Citizens Association asking the Council if they would accept a larger building grants for holding their regular meetings. A committee consisting of Councilors Hicks and McLaughlin was appointed to see to the satisfactions of the building and report at next meeting.

Mayor Bott introduced the question of the sewerage disposal. He said Mr. Warner had been looking over the ground and had also been to Edmonton, getting acquainted with the provincial requirements for sewerage disposal. (Continued on Page Three.)

REDCLIFF STORES ARE STEADILY ADVANCING

Redcliff is exceedingly fortunate in having such a fine class of stores as it can now boast of at the present time. All lines are well represented and the stock carried is as thoroughly up-to-date as can be found in any city. All, too, are keeping pace with the town's growth. During the past week Lou Barber's store has undergone some improvements which places that store in the big city class. The store has been removed from the centre of the dry goods department, leaving more space and a much better appearance for this part of the store, and making it possible for a much more convenient arrangement of the goods handled on this floor.

The west side of the building has also been enlarged to accommodate the hardware, furniture and crockery. The basement which is the full size of the building has also been divided off to make room for the surplus stock in each department. This is well filled with new spring goods for every line carried in this truly department store. On the whole Barber's store is a credit to the town and is looked upon as such by its citizens.

Baseball Fans Elect Directors

A meeting of the baseball enthusiasts was held in the Review office last Monday evening to discuss the advisability of organizing here. It was decided to organize and the following board of directors was elected: Messrs. Beasley, Munroe, Nico, Patterson and Stone. It was the wish of the meeting that the selection of officers for the season be left in the hands of the directors. They are now anxious that the board get together as soon as possible and make the necessary arrangements for securing an outfit so that regular practice may be started and games arranged as soon as possible.

MEETING
Thanks-In Redcliff, on Friday, April 24, 1914, to Mr. and Mrs. Tonks, a son.

McClary-In Redcliff, on Friday, April 24, 1914, to Mr. and Mrs. Robt. McClary, a son.

New Business Block for Broadway

W.T. Lockwood to Build Two
Story Block Near 3rd St.
—Other Building.

Whether it is the exceptionally fine weather of the past week, or the present outlook for a busy and progressive season of development and progress for Redcliff that is responsible for the apparent awakening of the old time activities, we do not know. At all events we are, the past few days, witnessing one of the old-time gales along real estate and building lines. In the last few days three lots have changed hands on Broadway and we understand it is the intention of the purchasers to start at once the erection of buildings on each lot.

Mr. W. T. Lockwood has already a plan prepared and has a gang of men at work for the construction of a fine two-story solid brick building on Broadway, near the corner of third street. The building will be erected first. The ground floor will be arranged for offices and the second floor for at least one hundred houses in different parts of the town.

Work on excavation for the building is proceeding under way. This, with the two other business blocks which it is expected will be built on the next side of Broadway this summer will give our main thoroughfare a real city like appearance.

Redcliff Securities Co.
Secure Gas Rights

For Property in North Redcliff—Can
Now Supply That District with
Gas Convenience.

We have just learned from a reliable source that the Redcliff Securities Company have succeeded in getting the gas rights for their property in section 29, township 11, range 6, through the Department of the Interior at Ottawa. This right was granted some time ago, but it is just lately that the company has secured it. The company have also secured a permit from the Department of Public Works at Edmonton to pipe the streets of North Redcliff, their property known as section 17. Their gas lease is No. 10181 and is signed by Mr. Carey, Deputy Minister of the Interior.

We are not in a position to state whether or not the Redcliff Securities Company intend to start drilling operations at once, but the securing of these rights places them in a position now to supply their living in that section with gas as soon as the well is completed and mains laid.

The Hat S. A. Band Gives Good Concert

A crowded house greeted the Salvation Army band of Medicine Hat, which gave a concert in the A. M. E. Church last Sunday evening. The band first gave an open-air concert, which attracted a large crowd. The program in the theatre, which consisted of musical and vocal solos, duets, quartets and selections by the full band, was one of the best of this nature we have had for some time. If this band should ever return to Redcliff they will require a larger hall to accommodate the crowd. Chiefly Benson made a very efficient chairman for the evening.

Redcliff Looses a Popular Young Man

Mr. A. P. Murdoch, who up till quite recently was manager of the Merchants Bank here, left last Saturday night for San Francisco, where he intends going into the insurance business. During his stay in Redcliff Mr. Murdoch made many warm friends and was one of the most popular young men of the town. Knowing how he is to do all have a keen interest in him and will be glad from time to time to hear of his rapid advancement in his new undertaking.

BOOT AND SHOE FACTORY NOW IN OPERATION

One of Best in America—Will
Make Fine and Staple
Footwear, Gloves,
and Mitts

WILL EMPLOY 100 MEN
Fifty now at Work—Increasing
Every Day—Machinery
Best Obtainable

After a visit to the Alberta Boot & Shoe Company's plant here we are convinced that this industry well not only be one of the best in Redcliff but will rank well up to the top in the list of manufacturing establishments to be found in Western Canada.

The machinery is now all installed, and although not running to its full capacity is a very busy place, and turning out a class of goods that are bound to find a market.

The delay in getting the machines in operation and the difficulty experienced in getting skilled labor has made it impossible to get on to the market for the summer and fall trade. The fifty employees at present on the job, however, are all hard at work making a staple line of boots and shoes, and the coarser lines of work gloves and mitts.

The staff is being increased from time to time as men can be secured to take charge of the different machines. The staff is being increased from time to time as men can be secured to take charge of the different machines. The staff is being increased from time to time as men can be secured to take charge of the different machines.

Already a number of special orders for the finer lines are being filled, and after seeing some of these in the finished article we are satisfied that it will only be a matter of a short time till this plant also will find it necessary to enlarge its quarters.

Mr. Baldwin, of the Montreal Shoe Machine Company, informs us that the machinery in the plant is the very best and most modern obtainable, and that the plant is one of the best equipped to be found on this continent.

When running at full capacity this industry will employ over one hundred skilled laborers, besides a score or more boys and ladies for making boxes and attending to other minor details.

Friday is visiting day at this factory and we are satisfied a visit to it will be an eye-opener to everyone.

School Children Comply With Law

We are informed by the medical health officers that the law respecting the compulsory vaccination of school children is being most satisfactorily complied with. Over two hundred children have either been previously vaccinated or have had it newly done in the last week. Some poorer families with a number of children of school age felt they could not afford to have them all vaccinated but the School Board have arranged to pay the fee for any who may find themselves in this position. At present only a very small percentage of the children are being refused admission to the school on this cause.

Jones—Combes
At the home of Mrs. Harden, Second street B. E. in the presence of a few friends, Miss Ellen Combes, of Many Berries, Alberta, and Mr. John Jones, of this town, were joined in wedlock by the Rev. Canon Gordon. We understand that the young couple are to remain in town.

A programme of exceptional quality is promised for Saturday night at the Maple Hall. There will be special two-reel Kalem Features, "The Big Horn Massacre," a story of Indian days. "Vigilante's" grand drama, "The Wild Fire" and "The Many Tomatoes," and Miss Annie McKinnon, one of the artists who secured a big success in our children's concert.

Oddfellows Give Concert and Banquet

Excellent Address, Musical Program
and Super Features of Evening
—Well Attended.

In order to further commemorate the 60th anniversary of the foundation of the order the local I.O.O.F. besides their church parade, held an entertainment and banquet in Palace Hall last Wednesday evening. The hall was very tastefully decorated with emblems of the order, bunting, flowers, etc. for the occasion, and when the large crowd assembled, the building presented a gay and brilliant appearance.

The function was divided into two parts: the first providing those present with a most interesting musical program, and the second with a banquet superbly prepared and served in a style that would have been a credit to much larger city than Redcliff.

Noble Grant Hamilton, who acted as chairman, opened the evening with a short address after which the following program was rendered:

Selection by the Citizens' Band.
Address J. H. Gibbs
Violin selection Mrs. Marjette
Song Bro. Shipley
Address Bro. Washburn
Recitation Bro. Warner
Selection by the Citizens' Band.
Song Miss Vera Black
Recitation Bro. C. T. Hall
Address Bro. Christof
Song Miss McKay
Violin Solo Mrs. Marjette
Recitation Bro. Smith
Song Bro. Smith

Each item on the above program was exceptionally well rendered and showed that Redcliff can boast of sufficient talent to put on an entertainment of this kind on a woman's notice. While it is unnecessary to deal with each individual item we feel that a few are worthy of special mention. The Scottish airs—including an imitation of the bag pipes—given by Mrs. Marjette on the violin were exceptionally well rendered and highlighted not only the Scotchmen but all present.

Miss McKay's song, "A Little Pink Rose," and Miss Black's song, "My Rosary," delighted the audience, showing that both these ladies are quite an acquisition to the musical circles of our town.

The addresses given by Bros. Washburn and Henderson were most interesting. In them the speakers reviewed the aims and object of Oddfellowship and pointed out the rapid growth of the order since its inception, ninety-five years ago. Last year the order distributed over six million dollars among widows and orphans of deceased brethren, and since the order started over one hundred million dollars has been used for this purpose. For the banquet three long tables, running parallel, were arranged at the rear of the hall, and these were taxed to their capacity to accommodate the crowd. On these, besides an artistic display of flowers, ferns, etc., we arranged a most interesting supper of cold fowl, meat, salads, jellies, pastry and fruit. Fees and cake were also served. During the supper hours many flattering remarks were heard regarding Mr. Washburn's ability in providing and arranging this part of the evening's entertainment. After the banquet Mr. Henderson, on behalf of the local lodge, thanked those who so nobly assisted in making the affair such a success.

Mr. Blaine, on behalf of visiting brethren, complimented the order on the great success of the evening and thanked them for remembering the visitors on this occasion.

The singing of "Auld Lang Syne" brought this part of the program to a close, after which those who wished spent a pleasant hour tripping the light fantastic.

REDCLIFF IN

NEW PRESBYTERY.

At Redcliff, on last Friday, the Presbyterian synod having decided that the Presbytery of Calgary, as it now stands, is too large, the Presbytery of Medicine Hat was formed to break the territory in the Calgary Presbytery, which extends from the Saskatchewan boundary to north and from Delabury on the South to Okotoks on the south.

The Presbytery of Medicine Hat will be bounded on the north by the Red Deer river from a point between ranges 20 and 21 to the Saskatchewan boundary on the east; on the south by the international boundary from ranges 2 to 12 inclusive; on the west by the international boundary northward to the Bow river, then along that river to a line between ranges 20 and 21, then north to the Red Deer river.

ADDITIONAL LOCAL NEWS.

The officers of the Redcliff Tennis Club wish to announce that all those who wish to join the club can do so by applying to any member of the organization.

Mr. J. W. King, who has been connected with Crowe's lately, has been doing time, has retired, the latter business previously conducted by Mr. Black, on Third street.

Mr. and Mrs. Ed. L. Stone and family have moved to Redcliff and will reside in Arlington. Mr. Stone is at present on the Denver staff.

Cosgrove Bros. who have been conducting a draying business here have bought on the Carey & Reid flower and feed business and have moved the stock to the new Reid building on Third Street. They will also continue the dray business.

The Henderson Co., chartered accountants, intend opening up an office in Redcliff and Mr. Howard, who has a change of name, Mr. Howard is building a house on Fifth Street and expects to move his wife and family up here in about two weeks.

Mr. L. B. Reynolds, of Nelson, B. C., has been on a trip, stopped off here for a few days on the return to visit Mr. and Mrs. Reynolds. Although a great lover of many towns, Mr. Reynolds has never been to the place he is now in.

Although Mr. Thorpe, principal of the school, has not yet sufficiently recovered from his recent illness to re-

CHURCH NOTICES

The Presbyterian Church.

Services are held in the morning at 11 o'clock in the church on Second street, and in the evening at 7.30 in the Empire Theatre. The forenoon sermon will treat the question "What's the Matter with Father?" and the evening will speak of "The Church, Delivered." Seats are all free and everybody is welcome. The Sabbath school meets in the church at 2.30, and the Union Bible class at 2.30. The class is planning a Empire Day picnic. The prayer service on Wednesday at 8 p. m. will be of special interest. Come and see. On Thursday the Ladies' Aid meets at 8 o'clock and the choir at 8 in the evening. The teacher and wife, who is open in the church every evening except those two.

Baptist Church.

Services in the A. M. U. Theatre, Morningship 11 o'clock. Subject, "The Foundation." Children's sermon, "The Man Who Forgot." Sunday school, 12 o'clock. You are especially invited to visit the Philanthropic and Adult Bible classes. Evening worship, 7.30 o'clock. It is possible that Supr. C. C. McLaughlin, of Calgary, who is to be present at the Men's Christian League to-night, will stay over to preach at this meeting. In case Supr. McLaughlin is unable to present the subject will preach on the subject, "The Call of the Leader."

Church of England.

Friday, May 1, St. Philip and St. James Day; even song and choir practice 8 p. m. Sunday, May 3, 10 a. m. and Holy communion 11 a. m. Sunday school, 2.30; Bible class, 3.30; even song, 7.30. Services will be held next Sunday in the new parish hall, which is situated on the church lots, Fifth street.

Men's Christian League.

Last Sunday Mr. Craven of Medicine Hat spoke on the "Mosaic of Life." He showed how our lives are linked up with each other and not isolated entities independent of each other, but that all are dependent upon one another and upon God.

This evening at 8 p. m. the Rev. C. C. McLaughlin, of Calgary, will give a lecture on "The Peace River Country." Mr. McLaughlin owns no land in this district, is connected with no real estate company and in no way has any "tax to grind." He has gone through this country as a missionary and is thoroughly familiar with it. He has a lecture that is not only instructive but one that is also entertaining. There will be a few musical numbers also in connection with the entertainment. Next Sunday afternoon at 3 o'clock E. L. Stone, of "The Review," will speak on "Longfellow's Legend." All men are invited. Don't miss it.

AUCTION SALE.

There will be exposed to sale by public auction on Wednesday the 4th day of May at 2 o'clock in the afternoon at the Palace Livery Barn, Redcliff, the following—One black gelding about 6 years old; one black gelding about 5 years old; one black gelding about 5 years old.

W. J. Lange, Auctioneer.

adme, his duties all the rooms in the school last evening, and it is apparent that the Invincible will win every game this season, as they did last season.

Mr. E. C. Daniels leaves to-night on a two-months' vacation in the south.

Mr. A. A. Rickett met with an accident last Wednesday evening. When coming downstairs from his house he stepped on an empty milk can and fell half way down stairs. He was able to go to Calgary next morning on business.

The Royal Dairy Co., which has been doing business here for some time past, have enlarged their premises and branched out into the lunch counter business. They will also carry a stock of fruit, cakes, dairy milk cream and cheese. Their store is in the Landis block, Third street.

The Redcliff football team to play the opening league fixture with Medicine Hat, Calgary on the Medicine Hat ball park, Friday May 1st, kick off at 6.15 p. m. as follows: P. Broughton, S. Kelany, J. Compton, A. Priddle, L. Lavette, B. Priddle, J. Morrison, R. Bibby, W. McLean, W. Smith, R. Hodge.

The above team will also journey to Brooks on Saturday May 2nd. All boosters cordially invited. Train to Brooks leaves Redcliff at 12.40.

Mr. and Mrs. J. L. Landis, started this morning on a trip of 400 miles in Mr. Landis' Oakland roadster. They expect to make the new town of Empire today, and will continue their journey to Provost to-morrow or next day. They will be away about a week.

Mr. O. L. Baldwin, who has been here for the past three weeks over seeing the work of installing the new machines in the foot and shoe factor has now every bit of machinery working in apple pie order and leaves for represents the United Shoe Machinery Co., Montreal, from which the machinery was purchased.

COWS PASTURED.

I will collect in the morning, pasture and return at night for 22.00 per head per month.

Please hand name and address to Mr. C. T. Doomer, Home Furnishing Company, Third St., or phone to

J. GREEN.

BARBER SHOP

Changes Management.

I have rented the barber business previously conducted by Mr. Black, on Third street, opposite Redcliff Hotel, and solicit a share of your patronage. Special attention will be given to all branches of this work:

RAZORS HONED,
SCISSORS SHARPENED
AND GROUND.

Whiskers removed without pain. Try it.

J. W. KING

Formerly employed at Crowe's Barber Shop.

Spring and Summer

MILLINERY

Always something new in Hats, Trimmings and Novelties at this store. Call and look over our stock. It is a pleasure to show you what we have.

Miss G. Levers

Third Street North.

PUBLIC NOTICE

PUBLIC NOTICE is hereby given that the "Volant" List for the voting on bylaws for 1914 and 1915, prepared, and that the Council will meet on Saturday the 14th of May, in the Fire Hall, at 2 o'clock in the afternoon for the purpose of finally revising the said rolls. The said rolls may be seen at my office on any lawful day between the hours of 10 a. m. and 4 p. m.

Any person who is duly qualified to vote, but whose name has been omitted from the said rolls, may have the same amended on making application to me or to the Council on or before Saturday the 14th day of May, at 2 p. m.

A. B. CLOW,

Secretary-Treasurer.

BASE BALL

WARMING UP

A Fifty Dollar Cup Put Up By Donald MacClintock—The Club Invited to Play at the 1st, May 25.

The directors of the Redcliff Base Ball Club, held a meeting at the office of Landis & Co. Thursday evening, and decided upon the arrangements for getting the series of games for the season under way. This business men and fans of the town are to be called upon to-day for subscription to the expenses of the club, and season tickets for all the games are to be sold to those who desire them. The suits for the club are being selected, and efforts will be made to have them here for the opening game. Donald MacClintock of the Overland Department-store has offered a \$50.00 Cup for competition by the clubs of the local league, which will serve to impart a greater interest in the game. A league composed of nine from Brooks, Carleton, Suffield, Medicine Hat, and Redcliff will probably be organized at once.

The Redcliff nine has been invited to play a game at Medicine Hat on May 25 with the senior amateur side of the Hat, the Independents, which will probably be held there. Individual Brooks leaves Redcliff at 12.40.

TO CONTRACTORS.

Tenders will be received by the undersigned up to noon on the 14th inst. for the erection of a church. Plans and specifications may be seen at the church, Second st., at any time after the 10th of May. The committee does not bind itself to accept the lowest or any tender.
G. LAWSON GORDON.
Redcliff, May 1, 1914.

prices are to be given to the players of the winning team.

The Redcliff nine has a practice game Thursday evening, and it is apparent that the Invincible will win every game this season, as they did last season.

"All the prosperous nations of the world are running wild with wastefulness," declared American Ambassador Page at a banquet in Aberdeen,

Scotland, last week. He landed Scotch frugality and said the Scots, Scotch for liberty, equality and frugality, have contributed enormously to the character of the American people.

Comparing the last trail with those of other nations, Mr. Page remarked: "Everywhere there is waste—in government administration, in private expenditure, even in America we have check ourselves lest we waste the very soil."

COUNCIL ORDERS PLANS FOR NEW SEWER SYSTEM

(Continued from First Page.)

ago disposed. A competent engineer from Mr. Francis' office had also been here, up 'till last Friday, gathering necessary data for the preparation of plans and specifications. If the work was to be proceeded with the next day for the Council to take was to instruct Mr. Francis to prepare plans and specifications for the sewer system. His Worship said he thought the first had arrived when it was absolutely necessary that Redcliff should have some system of sewerage. If we want to continue our industrial development, he said, it is essential that we are in a position to offer the same convenience and healthy conditions as are being offered by other towns and cities now making a rush for industries. He had been in touch with several industrial propositions lately and the question of water and sewerage was always among the first asked when inquiries were being made about our town. Since so many other places around us are now going after gas it is more imperative than ever that Redcliff should keep as far in advance as possible.

All the councillors expressed themselves as heartily endorsing the views as expressed by the Mayor, but were desirous of getting some information as to the approximate cost of the sewerage system. The Mayor said that after going carefully into all details at present available with the local engineers he felt safe in saying the total cost would not exceed \$250,000.00.

In view of the fact that Mr. Francis was the only man at present in a position to prepare the necessary plans and specifications, Councillor Hicks moved, seconded by Council Member MacLachlan, a motion instructing the Francis Engineering Company, of Montreal, to proceed with the preparation of plans and specifications for a sewerage system and that they submit one copy of same to the Department at Edmonton and one copy to the town of Redcliff. The motion carried unanimously.

As soon as these plans arrive it is the intention of the Council to proceed at once with the necessary plans to make the construction of the trunk line at least possible during the coming summer and fall.

Redcliff Commissioner Is Doing Good-Work

We clip the two following items from the Western British-American of Chicago:

Samuel C. Dunne, Industrial Commissioner of Redcliff, Alberta, has returned from a trip to Dayton, Springfield and other Ohio centres. He had no difficulty in interesting moneyed men in the advantages of the now celebrated Gas City of the Canadian West. A number signified their desire to spend their holidays this summer in Redcliff and vicinity.

Samuel C. Dunne, Industrial Commissioner, Redcliff, Alberta. R. J. Speers, a leading citizen of Wilkie, and W. B. Manchester, of Regina, Saskatchewan, were guests at the Wednesday luncheon of the Chicago Association of Commerce and among others were delighted with the address of Dr. George W. Kerby, of Chicago, on "The International Commercibility."

How He Could Tell. A Georgia "cracker" tells this story on his own people. He says a Northern man who had settled in Georgia was visited by a friend who asked him:

how he liked the place and the people.

"O.K. all right," replied the man. "Now tell me," asked the friend, "what is a Georgia cracker?" How can you tell, then, from another person?"

"Well," replied the Northern settler, "you are out in that field, a black sheep!"

"Yes," said the friend. "Why," said the man, "that may be since a Georgia cracker is a stump. Watch it for half an hour, and if it grows, why, it's a stump."

DEPARTMENT OF EDUCATION PUBLIC NOTICE

(At Least Five Notices Must Be Posted Within the Limits of the District)

By the Board of Trustees of the Redcliff S. D. No. 2283, of the Province of Alberta.

WHEREAS it is deemed expedient by the Board of Trustees of the Redcliff S. D. No. 2283 of the Province of Alberta, that the sum of twenty-five thousand dollars should be borrowed on the security of Debentures repayable to the bearer in twenty equal consecutive annual instalments with interest at the rate of not more than eight per centum per annum for the following purposes, namely: Purchasing three school sites, building of solid brick and furnishing three one-room schools and janitor's house, and fencing present school house.

THEREFORE, notice is hereby

given by the Board of the said District that unless a poll of the ratepayers of the said District for and against the said debenture loan is demanded as provided by the School Ordinance and said Board will apply to the Minister of Education for authority to borrow the said sum by debentures.

Of which all persons interested are hereby notified, and they are required to govern themselves accordingly.

D. BROADFOOT, Chairman. Dated at Redcliff, Alberta, this 16th day of April, 1914.

Instructions to Ratepayers. In rural districts a poll on a debenture loan may be demanded by any four ratepayers if the loan exceeds \$12500.00, or if the loan is not for the

purpose of building a first school house.

In town and village districts a poll may be demanded on any debenture loan by twenty and ten ratepayers respectively.

Every demand for a poll should be delivered to the secretary of the district or to his absence to the chairman of the Board within fifteen days from the date of posting these notices. A certified copy of the demand should be forthwith forwarded to the Department of Education.

FRIDAY, MAY 1, 1914.

SHOULD HAVE SEWER SYSTEM.

The views expressed by the Mayor and Councillors at the last Council meeting when discussing the sewerage situation are, we are sure, the views of every citizen of the town, especially those who have money invested here and are anxious to see Redcliff go ahead.

Our abundance of natural gas and coal furnishing as they do such cheap power, has been and still are a wonderful inducement for industries to locate here, but at the present time when gas is being discovered in other surrounding small towns, and when the country is being opened up and developed by the numerous new branches of railroad, it is absolutely necessary that we, in addition to our natural assets, are in a position to offer prospective industrial concerns something more than newer places can offer, if we are to maintain our present lead and eventually become the industrial centre of Southern Alberta.

It is quite natural to expect, as Mayor Bott stated, that men looking for a place to open up a manufacturing establishment, will carefully consider the sanitary conditions, water supply, and other modern conveniences, and these factors will greatly influence them in arriving at a decision as to where they will locate.

For certain lines of industries proper sewerage disposal is absolutely necessary. Besides this the skilled labor employed in most manufacturing plants naturally comes from the larger centres of Eastern Canada and the States, where they had been accustomed all their lives to all the modern conveniences that go with city life. This being the case it is natural to suppose that employers of this class of labor would experience some difficulty in getting men to leave such surroundings and come to a place where we cannot offer similar conveniences.

We fully realize the fact that there are many things a growing town like Redcliff needs and we also know that these apparently little things cost money and cause the Council considerable worry, but it is surprising how their absence among those who have been accustomed to having them causes unfavorable comment, which must be detrimental to the town's welfare.

For instance, there are those living in town at present who have no water connections, and while it is really no inconvenience at present it will be in the winter time, when the barrels at present used for the water supply will freeze up. It will also be most unhealthy during the hot summer days to be using water out of barrels that are surrounded by those pesky carriers of disease—the fly.

While the sewer system is most important we think the Council should make a special effort to give those at present here all possible conveniences and protection from disease. This could be done now while awaiting the necessary preliminary work for starting the sewer system.

CAMPAIGN AGAINST HIGH RENT.
The Board of Trade in Calgary, assisted by several of the newspapers, are conducting a campaign against the excessive rents charged by landlords for retail stores and offices. This campaign is timely and the example might be followed by boards of trade and newspapers

in other cities and towns in the West.

In towns and cities where there has been a mushroom growth or real estate boom the demand for offices caused rents to soar so high that they were out of all reason. When things were brisk these rates were not noticed, but now that conditions have changed and business is again down to normal, landlords are trying to keep rents up to their inflated mark.

There is no class in the community which ministers more to the progress and development of a city than its retail merchants; consequently they should be encouraged in their undertakings, not only by large receipts derived from public patronage, but by being enabled to secure business quarters upon reasonable terms.

The high rents that have been demanded of them, especially during the past few years, have seriously handicapped them in many ways and has retarded the growth and development of their business. This necessarily is a hindrance to the town in which they are located, as the money usually used for expansion is all eaten up in rents. Nor is it only in business places rents are excessive. In some Western towns the rent asked for buildings thrown up any old way and called houses is nothing short of a crime.

We hear much of the high cost of living now a-days, but to our mind one of the agencies which contribute most to this state of affairs is excessive rents.

Excessive rents are a drawback to all but those who receive them, and it is high time that property owners, who have had a good long innings at their own price, became willing to share to a reasonable extent the burdens of this period of monetary stringency with their tenants. In such cases a present sacrifice will mean continued success, whilst the time may not be far distant when the absence of sacrifice will mean absence of rents altogether, and a series of stores and houses of the "white elephant" variety.

LIGHT NEEDED ON BROADWAY.

Our experience of last Monday night convinces us beyond the possibility of a doubt that the chairman of the Light Committee should get busy at once and have a street light placed on Broadway where the spur track crosses that street. To have a trap like that on our main street with no light nearer than a block to it, is the biggest kind of an oversight on the part of the Council. It is surely a meretricious that the author of this article is not going around on crutches at the present time as a result of his tumble last Monday night. With the increasing traffic on this street in that direction we are satisfied it will only be a matter of a short time till the Council has to face an action for damages unless something is done to safeguard the public at that point.

CONTINUE THE GOOD WORK.

Since a move has been made by the sanitary department to have milk tested and requiring all milk vendors to deliver milk in sealed vessels it might be well if this department would go a step further and require all vendors who use tickets to have sanitary tickets. There is just as much danger of spreading disease by taking a bunch of dirty card board tickets out of a house where there is an infectious disease and selling them to another house as there is by impure milk. Now that the warm weather is coming of every possible precaution should be taken to safeguard the public against the possible outbreak of an epidemic.

FARMERS BANK DE-

POSITERS MOST PLEASED.

The resolution introduced in the house of commons for the repayment of the Farmers' Bank depositors to an extent not exceeding \$1,200,000, has sent a thrill of satisfaction through depositors and shareholders alike.

The deposits at the time of the banks suspension amounted to \$1,200,000, but this sum has been considerably reduced, and now amounts to probably not more than \$1,600,000.

Under an agreement between the depositors and the shareholders the depositors will get 100 cents on the dollar, will turn over about 15 per cent of the money they receive to the liquidator for the purpose of removing the double liability from the shareholders. This agreement has been signed by about 75 per cent of the depositors, and is entirely outside of the matter of legislative aid. It is a matter entirely between the shareholders and the depositors.

IRRIGATION CONVENTION
TO BE HELD IN CALGARY.

Irrigation will be regaled with capital letters in Calgary from October 3 to 10 next, for during that period will be held there the International Irrigation congress. The value of this conference will scarcely be known to the outsider, but those who are familiar with the scope of irrigation undertakings and with their effect on the countries in which they are being carried out declare that the gathering will exert an influence that will be felt in every country in which modern methods of agriculture are practiced. It is stated that not only will delegates from many other countries be present, but that they will bring with

them exhibits which will illustrate what efficient irrigation will do. Since irrigation is necessary in some sections of Alberta the congress will be of live local interest for the material benefits that it will confer on the community as well as for its social and advertising aspects. The organizers of the affair are making active preparations for the assembling, and in this important work they deserve the support and sympathy of the entire Canadian west.

BRITISH PREFERENCE

This Question in Relation to Present Conditions of the Wool Industry

A study of the woolen industry in Canada is interesting at the present time in view of the agitation to increase the British Preference. In 1901, British manufacturers were given a preferential tariff rate equivalent to 33.3 per cent. During that year the value of woolen imports into Canada from the United Kingdom amounted to \$1,839,861. Under the stimulus of this low preferential rate importations rapidly increased, and although in 1906 the preferential rate was changed to 30 per cent ad valorem, the importation of British goods increased so rapidly that in 1911, it amounted to \$12,632,267.

What happened to the woolen industry in Canada during this decade? In 1901, the capital invested was \$10,657,408; in 1911, it was only \$15,532,605.

This simply means that the British preferential tariff in woolens benefited British manufacturers at the expense of Canadian manufacturers.

Five factors contribute to the difference in the cost of production in the United Kingdom and in Canada. First, the cost of building and equipping a plant is much greater in Canada than in Britain. Secondly, interest charges on capital are greater in Canada and partially developed country. Thirdly, Canadian manufacturers have not yet reached that stage of industrial development where they can specialize extensively, and are consequently compelled to fill some contracts at a loss. Fourthly, the greater part of the raw material is to be imported from the United States. In 1911, the 7,135,436 pounds of raw wool imported into Canada, 2,962,722 pounds came from Britain. The fifth and most important factor is labor.

We do not want to keep skilled workmen out of Canada, or drive out those already here by decreasing their wages to the level of British wages. If capital invested in the woolen industry decreased by \$10,632,267 during the last decade, what decrease may we expect during the next decade if the British preference on woolens is not reduced to the level that would happen to our woolen industry if the preference were increased.

In dealing with the British preferential tariff, not only is the woolen industry but in all Canadian industries, it is only reasonable that we should safeguard the workers and the business of our own citizens first.

In view of the efforts that are being made by the Department of Agriculture of the Dominion and of the various provinces to encourage the raising of sheep, the foregoing statement about the effect of the British preference are not without interest to the Western farmer and prospective wool grower.

JAPANESE COTTON

Its Bearing on the Cotton Trade of Canada and United States

By living on a scale which would starve an American or a European, and by constantly striving to perfect their manufacturing processes, the Japanese are taking advantage of the trade from the United States in spite of the high tariff of that country. Senator Root explained to the United States Senate the other day how Japan had already taken the cotton trade of Manchuria from the United States, and would soon control the entire demand of China. It would seem evident that as Japan takes away the trade in cotton from the United States, that that country will try to redeem its losses by selling more cotton in Canada, especially if our duty is reduced.

The Canadian tariff on gray and white cotton fabrics is only 25 per cent, and on colored cotton fabrics 35 per cent. Japan is not our only serious competitor, as yet, probably, because she is confining her efforts to taking away the Asiatic export trade of the United States. By during the year ending March 31st, 1913, we imported cotton manufactures worth \$4,787,000 from Great Britain and \$2,831,468 worth from the United States.

Those who advocate increasing the British Preference should consider the effect of such an increase on our cotton industry. A recent official report of the British Government states that 14 per cent of the men employed in the cotton industry in England earn less than \$6 per week, working full time, nearly 41 per cent earn between \$6 and \$7.50, thirteen per cent of the women working full time, earn less than \$2.40 a week, while 39 per cent earn between \$2.40 and \$3.60 a week. The average hours of labor in the English cotton industry are 55.5 a week.

Do we want these wages for the men and women who are employed in the Canadian cotton industry?

A brick and clay products plant will shortly be erected in Taber, Alta., for the Canada West Mills.

TOWN AND COUNTRY
HELP EACH OTHER

Farms and Industrial Centres are Complementary—Relations of Urban and Rural Populations

(From Winnipeg, Country Life)

Man cannot live by bread alone, and a Province cannot live by farm alone or be ruled by the sole industry of stock culture. Country and town are complementary—inter-dependent rather than independent. One's existence is the real source and the full fruition of the other.

The country supplies the town of city with its bread and muscle, with the physical strength without which material and intellectual advancement is impossible. Most of the leading men in the business and professional life of any urban population were country-bred, and medical experts tell us that so city family can maintain its normal vitality past the second or third generation without recourse to the land. One foremost student, men, clergyman, scientists, lawyers, and educationalists, are most vigorous capitalists of industry, commercial magnates and railway builders came up from those rural districts which are an everlasting well-spring of urban vitality and manhood.

Outlet for Young People

Just here the law of compensation appears. If the farm produces the food for the town or city the town affords a convenient outlet for the rural blood. Young men and women, whose inclination of ambition renders them averse to country life find their natural field of effort in the neighboring urban centre. If such centre is not near at hand family ties suffer and ever-increasing numbers of valuable citizens and their productive capacities are lost to the country, the Province or even to the nation. If these young people can find congenial occupations or vocations in some town or city near home they remain in touch with their own people and enlarge the purchasing capacity of such centre so far as the foodstuffs produced by the neighboring farmers are concerned. This phase of the argument will become growingly convincing as the agricultural communities of the West take to mixed farming and the cultivation of other foodstuffs than the primary grades.

Social Interdependence

There are far wider spheres in which the town centre offers vital and vitalizing benefits upon the territory of the town or city for miles around. The town or city develops the social side of the race and affords opportunity for those activities in which human beings secure better results collectively than individually or in comparative isolation. It is only in populous places that colleges, universities and other institutions of learning and culture spring up, and but for these the farmer's boys and girls could have no education beyond that provided by the local public schools. But for the congregation of humanity in hundreds and thousands the nation would enjoy no development in music, painting, sculpture, architecture, or the higher civilization and finer grades of life. But for towns and cities the human race would be hindered in its advancement in medical science and there would be none of those modernly equipped hospitals to which the farmer and his wife and children are glad to go for relief when stricken by disease or accident. Even religion itself would suffer for want of the driving force which it acquires in the theological colleges and philanthropic associations which are to be found only in our cities. If some of our manufacturers and business men acquire large fortunes, many of them give freely of their substance to colleges, universities, and hospitals as well as to the farming as well as the urban population.

It stands to reason, therefore, that the greater the number of towns and cities scattered about the prairie the better for those who till the soil. Villages do not grow into towns and cities without manufacturing industries, and manufacturing industries cannot live in Canada except under the shelter of a fiscal policy which encourages their establishment and growth in this country. This is true for the Eastern as well as for the Western Provinces.

The MacDonald Brick Co., Edmonton, Alta., are installing additional machines so as to give the plant a daily output of 60,000 bricks. The factory will be operated by electricity. During 1912 the Dominion Steel and Coal Co. had 1,000 men on its pay roll, but this year's requirements will run largely in excess of this, as 1,500 men will be employed in the new mine. The wage bill last year was \$1,230,000.

The Leithridge Creamery Co., Ltd., has been incorporated at \$25,000 with permission to increase the capital to \$100,000. It contemplates erecting a creamery and cold storage plant. A warehouse is being erected in Edmonton, Alta., for the National Drug & Chemical Co.

Caledonians Again

Defeat Medicine Hat

The Redcliff Caledonians continued their victorious march on Saturday last by defeating the Nomads, a Medicine Hat aggregation which came here, with a great name, but returned to the Hat with a defeat notched to their debit, the local boys in black and white turning it over to the time of two goals to nil.

The weather that Saturday evening was the most disagreeable description and bets were being laid that no game would be played. The two sides, however, turned out like good sports and the ball was kicked off at 4:30, the Nomads winning the toss and playing toward south goal, with a good wind blowing at their backs. The wind took the biggest hand in the game during the first half, and really first-class football was impossible. The Caledonians, however, with wind and grudge against them, showed up perhaps better than in any match yet played. The Nomad goal was more or less in a state of siege from the kick-off. Judging the ball, however, with the high wind blowing, was a dead letter and even Mr. Brennan would allow us to excuse him for not playing his usual brilliant best game.

Cameron and Watson, in the early stages of the battle, showed brilliant form and Cameron, especially, had been better supported in the centre of the field when he sent in some beautiful passes. The Nomads have been responsible for several easy goals.

The Nomad team had a reputation in the Hat, but they were not class for the Caledonians. Cameron has splendid shot by himself in from extreme right, which the visiting goalkeeper has to get away quickly. Connell, the Redcliff right half back played a splendid and steady game, feeding his forwards in great centre forward, is not yet up to the president's anticipations and frequently fouled some elegant centres from right and left. King, the Nomad left half, was in difficulties from the start of the game with a sprained leg, ultimately going into goal, in which position he showed good form, stopping a number of hot shots.

Gordon and Johnston, on the left, were more noticeable, and in fact the whole Caledonian team were playing a much finer combination game than they have done since the beginning of the season.

The game does not call for detail description as the weather conditions were so unsatisfactory. Suffice it to say that while the Nomads in some instances showed good football, they were by no means a match for our local boys. The headwork of the "Son of the Desert" was excellent, but the team was played all round.

It was quite dark before the final whistle blew, leaving Redcliff winners by two goals to nil. It was a nice, clean game, the contests between Hat teams and Redcliff up to now being characterized by thorough good fellowship. Long may this good sportsmanlike feeling exist.

Caledonians—Goal, Patterson; Barnes, D. Gordon; full backs, Connell, Bitchley and Leamond; forwards, Cameron, Watson, Brotherton, Gordon (T) and Johnston.

Nomads—Goal, McKinlay; backs,

Bess, McKinlay; half backs, Jamieson, Bland, King; forwards, Evans, Thirrell, Cox, Guthbertson and Southgate. Lineemen, Kitchen and Patterson; referee, D. Kerr.

The following gave the league fixtures for the season as arranged at the meeting held in Medicine Hat last Monday night. The games will be played on the grounds of the first named club.

May—
1—M. H. Caledon vs. Redcliff.
2—Moore vs. Redcliff Caledon.
7—Nomads vs. M. H. Caledon.
9—Redcliff Caledon vs. Redcliff.
12—Moore vs. Redcliff Caledon.
13—M. H. Caledon vs. Redcliff Caledon.
18—M. H. Caledon vs. Moore.
19—Nomads vs. Redcliff Caledon.
21—Redcliff Caledon vs. Moore.
27—Redcliff vs. Nomads.
July—
4—Redcliff vs. Redcliff Caledon.
6—M. H. Caledon vs. Moore.
9—Nomads vs. Redcliff Caledon.
14—Nomads vs. Moore.
21—Redcliff Caledon vs. M. H. Caledon.
24—Moore vs. Redcliff.

FOUNDRY WORK OF ALL KINDS

To Raise Cattle in Arctic Circle.

Angus Brabant, Inspector, of the Hudson's Bay Company's, trading posts in the Mackenzie River district, announced on his arrival in Edmonton that large crops of potatoes, turnips and other garden vegetables were harvested last season at the eighteen posts. Most of these are well within the Arctic circle, from 1,500 to 2,100 miles north of Edmonton. He reports that there are not less than 1500 head of cattle, and two herds some recently in the north country, besides hundreds of caribou and deer of all varieties. Mr. Dr.

tant is of the opinion that thousands of beef cattle could be raised in the northern latitudes, and with that end in view he will take a small herd to the "farthest north" district as soon as river navigation opens this spring. He will experiment with grain for feeding purposes.

"The eyes are the windows of the soul, and every man must look out for himself."

Face the world and you won't be so apt to be talked about behind your back.

By-Law No.

A BY-LAW OF THE TOWN OF REDCLIFF TO PROVIDE FOR THE RAISING OF THE SUM OF \$10,000 TO BE EXPENDED IN CONNECTION WITH THE PURCHASE AND ERECTION OF STREET LAMPS FOR THE LIGHTING OF THE STREETS IN THE TOWN.

WHEREAS, the Municipal Council of the Town of Redcliff, deem it expedient to purchase and erect street lamps for the lighting of the streets in the town;

AND WHEREAS, it is estimated that to carry out the said work there will be required the sum of \$10,000; AND WHEREAS, in order to carry into execution the said objects it will be necessary for the Corporation of the Town of Redcliff for the sum of \$10,000 and the same has been decided that the same should be raised by a sinking fund (15) years and bear interest at the rate of six (6) per centum per annum;

AND WHEREAS it is expedient to create a sinking fund for the repayment of the said sum of \$10,000 and that the annual amount to be levied on account of the same fund shall be paid annually by the Secretary-Treasurer of the Town to the Provincial Treasurer;

AND WHEREAS there is required to be raised in each year for fifteen (15) years the sum of \$300.00 to pay the interest on the said amount and the sum of \$14.00 to form a sinking fund for the payment of the principal money;

AND WHEREAS the amount of the whole rateable property of the said Municipality according to the revised assessment roll thereof is \$248,000;

AND WHEREAS the total existing debt of the Municipality outside of the debt for the current expenses of the year is the sum of \$175,000, no part of which is in arrears;

AND WHEREAS, it is expedient that the by-law submitted to the final passing thereof;

NOW THEREFORE the Municipal Council of the Town of Redcliff enact as follows:

1. That it shall be lawful for the Mayor and Secretary-Treasurer of the said Town to borrow the sum of \$10,000 and the same of any bank or banks at the rate of interest of six (6) per centum per annum;

2. That the said sum shall be expended in the purchase and erection of street lamps in the Town of Redcliff, and for the purpose of raising said debt there shall be not less than \$10,000 for each year of the said term of fifteen (15) years, the sum of \$10,000,000 as aforesaid shall be raised, each year, at the end of each year, and that the said debt shall be paid by the said debtors at the rate of six (6) per centum per annum, and the said interest thereon and coupons shall be payable at the holder's option at the Royal Bank of Canada, in the City of Montreal, Quebec, or in gold coin of the United States of America, or in legal tender of weight and fineness at the said Bank in New York City;

3. That the said debt shall be secured by the Mayor and Secretary-Treasurer of the said Town, and shall be secured by the seal of the Corporation of the Town of Redcliff;

4. During the currency of the said debt there shall be raised annually by special rate over and above all other rates and taxes on all the rateable property of the Town of Redcliff the sum of \$1,649.10, being the amount required to pay the interest on the said debt in each and every year and to form a sinking fund for the payment of the principal money at the end of the said period of fifteen years;

5. That the Secretary-Treasurer of the Town shall pay the annual amount to be levied on account of the sinking fund to the Provincial Treasurer annually;

6. This by-law shall take effect and come into force on the day of the final passing thereof;

DONE AND PASSED by the Municipal Council of the Town of Redcliff in Council assembled, on the 28th day of April, A.D. 1914.

Read a first and second time this 6th day of April, A.D. 1914.

(Seal of Town of Redcliff) A. B. CLOW, Sec.-Treasurer.

PUBLIC NOTICE is hereby given that the foregoing is a copy of the proposed by-law to provide for the raising of the sum of \$10,000 to be expended in connection with the purchase and erection of street lamps for the lighting of the streets in the town, which has been introduced and which will be finally passed on the 6th day of April, A.D. 1914, and the assent of the burgesses being obtained thereon, within the time specified in the notice, and that upon the 6th day of April, A.D. 1914, the said by-law will be held between the hours of 10 o'clock in the forenoon and 4 o'clock in the afternoon of the same day at the hall in the building known as the Town of Redcliff Hotel, Redcliff.

WILLIAM HENDERSON, Returning Officer.

NOTICE TO THE RATEPAYERS OF THE TOWN OF REDCLIFF.

Notice is hereby given in terms of "The Town Act" that the Council of the Town of Redcliff will proceed to the construction of the local improvements set forth in the by-law, a copy of which is submitted, unless in the opinion of the Council it is expedient to raise by way of loan on the credit of the town at large the sum of \$12,000 for the purpose of carrying out the said local improvements; and that the total cost of the said local improvements is \$12,000, of which \$4,000.00 is to be borne by the town at large and \$8,000.00 is to be borne by the rateable property of the town at large.

1. That the said sum shall be expended on the construction of the local improvements hereinafter mentioned, and that the same shall be raised by a sinking fund for the payment of the principal money at the end of the said period of fifteen (15) years, the sum of \$10,000,000 as aforesaid shall be raised, each year, at the end of each year, and that the said debt shall be paid by the said debtors at the rate of six (6) per centum per annum, and the said interest thereon and coupons shall be payable at the holder's option at the Royal Bank of Canada, in the City of Montreal, Quebec, or in gold coin of the United States of America, or in legal tender of weight and fineness at the said Bank in New York City;

2. That the said debt shall be secured by the Mayor and Secretary-Treasurer of the said Town, and shall be secured by the seal of the Corporation of the Town of Redcliff;

3. During the currency of the said debt there shall be raised annually by special rate over and above all other rates and taxes on all the rateable property of the Town of Redcliff the sum of \$1,649.10, being the amount required to pay the interest on the said debt in each and every year and to form a sinking fund for the payment of the principal money at the end of the said period of fifteen years;

4. That the Secretary-Treasurer of the Town shall pay the annual amount to be levied on account of the sinking fund to the Provincial Treasurer annually;

5. This by-law shall take effect and come into force on the day of the final passing thereof;

DONE AND PASSED by the Municipal Council of the Town of Redcliff in Council assembled, on the 28th day of April, A.D. 1914.

Read a first and second time this 6th day of April, A.D. 1914.

(Seal of Town of Redcliff) A. B. CLOW, Sec.-Treasurer.

CANADIAN WORKERS— AND THEIR WAGES

Could They Live in Competition With
Seven-Cent-a-Day Oriental
Labor?

According to The Boston News Bureau Japan and China between them, boasted only the small steel manufacturing plants as recently as five or six years ago. Today the two plants employ more men than any steel company in the world, with the exception of the United States Steel Corporation. Both plants are manufacturing a good grade of Bessemer steel, and a fine grade of Bessemer rails. Good ore is found in both countries.

The News Bureau continues: "Recently the Japanese concern bought the Chinese plant and is preparing to spend \$10,000,000 in improvements. The plant already has a production of 15,000 tons of high-grade Bessemer rails, which are much demanded and sold at a greater price than the Chinese rails. The greater part of China's needs and a large part of Japan's requirements. The company recently took a considerable rail order for the Philippine Islands, on which American, British and German producers were bidding. The cost of manufacturing in China and Japan is low, labor being the cheapest for that class in the world. The Belian, who are the Chinese workers in a steel mill, are paid \$4 to \$6 per day in China, compared with \$10 to \$15 per day in this country. In other words, the best operator in China gets \$3 a month, while the same man here receives \$104. All men's wages are in constant rise. The women work, and these male and female laborers are paid only 5 to 7 cents per day, compared with 13 per day for common labor in this country."

Free trade would deprive Canadian industries and workers of their protection against this cheap Oriental labor. How could the laboring population of Canada compete with the cheap wages or hope for better wages in the future if the industries employing them were not protected against the products of five to seven cents a day labor?

CANADIAN INDUSTRY SHOULD PRODUCE

Much More Butter For Home Market
And Cheese For Export

Canada is an importer of butter. Such is a startling feature of the latest report of the Dairy Commission, Ottawa. The following table shows that, while Denmark was the enviable exporter to the United Kingdom of 177,649,185 pounds for the year ending November 30, 1913, Canada's meagre contribution was 4,355 pounds. This contribution was merely incidental, as this country's imports of butter during the same period amounted to nearly 7,000,000 pounds. The bulk of it came from New Zealand.

This would seem to indicate that the butter industry of this country is on the decline. But such is not the case. We produce more, but are consuming a great deal more. It is estimated that Canadians are using in one way or another about \$40,000,000 worth more a year of dairy products than they were a decade ago. In 1903 the Prairie Provinces produced about 500,000 pounds of creamery butter, and last year 4,000,000 pounds. Their requirements in 1913 were 500,000 pounds against 20,000,000 last year. That is requirements have been multiplied about 10 times. Altogether Canada now consumes close to \$100,000,000 worth of milk, and its products, in the course of a year. The increased needs are due chiefly to the rapid increase in population, but in large measure to the increased use of sweet cream and ice cream. It is estimated that the ice cream manufactured in 1913 was equivalent to 2,500,000 pounds of butter, and the sweet cream used to 4,000,000 pounds. The Prairie Provinces are developing the dairy industry in a scientific manner. In the best farmers are quickening their efforts. If, however, Canada is to maintain her export trade in cheese, in competition with other growing commercial countries, if she is to meet her own needs in butter the industry must surely be extended indefinitely all over the Dominion.

It was a wise man who defined a graze-trust as "a lioness which had a chance and took it." Most successful chances are no good unless they are taken, and usually they have to be well nursed after taking. There's a fine future for the lioness or the man—which everlastingly digs after success, and just grins and goes on when in the natural course of things a decision to quit might be expected. The Agropur Co. Chicago, Ill., has placed a neat packing plant in Saskatoon, Sask. The site has been purchased.

Young Folks Give Concert at Maple Hall

One of the best concerts ever given in Maple Hall was the unanimous opinion of the gathering who attended the entertainment there on Friday last.

The concert, consisting of character songs, solos and duets, was given by ten small boys and girls specially trained by Mrs. Duffin. Every performer was a decided success, taking his and her part in a way that would rank with any adult. We understand the management of Maple Hall have engaged two of the performers to sing at their picture shows, which allows our town to have good musical talent.

The children are now rehearsing for another performance at any early date, particulars of which will be found in our advertising columns in due course. The names of the children taking part were Misses Annie McKinnon, Margaret Harding, Olive R. Dell, Harrie Timmuth, Nellie Osgood, Catherine Martin, June Noel, Master Jack Osgood and Tom Martin.

MEETING OF THE REDCLIFF LAWN TENNIS CLUB

A very enthusiastic meeting of the Redcliff Lawn Tennis Club was held in the offices of Mr. A. B. Clow on Thursday evening last. About fifteen members were present. The following officers were elected for the season of 1914.

Hon. Vice Presidents, Mr. H. O. Wheeler, Mr. B. J. Bott, and Mr. L. H. Bryant; President, Mr. B. E. Howland; Vice President, Mr. H. C. B. Gibson; Secretary and Treasurer, Mr. C. E. White; Executive Committee, Mr. J. Freeman, Mr. H. T. Smith and Mr. H. P. Collins.

Messrs. Elliott & Lang have started work on grading the courts, and are using every effort to rush the work to completion. The members of the club are respectfully requested to be on hand every evening next week to help as much as possible in erecting the back stops etc. etc. The entrance fee to the club is Centimeter \$5.00, Ladies \$3.00. Anyone wishing to join will please communicate with the Secretary, box 4, Redcliff. It is hoped to have the courts in shape for playing by the latter end of next week. It is the desire of the officers of the club to have everyone interested in lawn tennis join and unite in making the Redcliff Lawn Tennis Club a successful organization.

Redcliff Caledonian

Football Club

A committee meeting was held on Tuesday night when the usual Club business was discussed and arrangements made for the first league match on Saturday against the Moose Club at the high. The players and coaches are required to be at the Overland Store at 5 o'clock sharp where the bus will be waiting. As this promises to be a hard game the committee would like to see as many members as possible make an effort to be present of the match, and cheer their team to victory. The team has been asked to play in a tournament at Dunmore on the 14th of May and will make a big endeavor to bring home the Cup that is being put up for competition. The following team and reserves were chosen to play on Saturday next: Peterson, Evans, Gordon Watson, A. Learmonth, John Osgood, Catherine Martin, June Noel, Master Jack Osgood and Tom Martin.

FLETCHER ORDERS VILE PRISON CLOSED

The fortress of San Juan de Ulos, noted for centuries as perhaps the foulest prison on the American continent has been ordered by Rear Admiral Fletcher to be completely vacated immediately.

When the American sailors and marines occupied Vera Cruz there were in this prison, which is constructed in the form of a little island in the harbor, 400 prisoners, most of whom were confined for political offences. Three hundred of these men already have been released or transferred to other prisons, but there remain 116, and now these men are to be sent elsewhere.

The inspection by the American authorities verified the tales that had been written and told for generations of the terrible conditions prevailing there.

HITS FROM SHARP WITS

The fellow with nothing but a hobby can't expect to capture any prize at a horse show.

"There is only one thing that will beat a mushroom growing," remarked the Man on the Car, "and that is a grievance."

It is not the high coat-of-the things we don't need that we grow about.

Nobody now blames the Mexican jumping bean for jumping.
A man who suffers from cold feet is often hot-headed.
Some people are unwise enough to think that they are wise.
A man in a Massachusetts hospital has been found with a heart in the wrong place. He is not the only one. The hearts of some are located in their pocketbooks.
True greatness is never conscious of itself.

ITEMS OF LOCAL INTEREST.

Mr. E. L. Lane made a flying business trip to Calgary, this week.

Mr. Spaulding's new warehouse is completed, and is now fully stocked with all kinds of builders' supplies.

Mr. E. C. Dashi sold a valuable piece of jewelry on Broadway this week to C. B. Pingle, M.P.P.

Mr. and Mrs. Tweed of Brooks were the guests of Mr. and Mrs. Washell for a few days this week.

Mr. Charles Duncan, of Watrous, Sask., spent a few days this week in town visiting his mother at the Northern Hotel.

The Hon. A. G. McKay, of Edmonton, and C. B. Pingle, M.P.P., were visitors in town last Tuesday evening. Mr. McKay is attending court in Medicine Hat this week.

Mr. E. Crowe, who has been at St. Clement, Mich., for the benefit of a child, returned to town last Monday and is now able to attend to business again.

The Caladenia football team to Medicine Hat to-morrow to play a return game with the Calles of that city.

The Rev. C. C. McLaughlin, of Calgary, will deliver a lecture on "The Peace River Country" in the Methodist Church room to-night. This is sure to be a most interesting lecture, as the Peace River country is now very much talked about. All are invited.

Mr. S. C. Gibson, of Langs, Mont., arrived in town last Tuesday to visit his brother, C. M. Gibson. To a representative of The Review Mr. Gibson said he was very much impressed with Redcliff's present condition and its future prospects.

The Woman's Auxiliary of the Church of England will meet next Wednesday, May 6, at the parish hall, Fifth street S. E. at 2:30. In the future it will always be held in this building.

A meeting of the Women's Civic Improvement Society will be held on Tuesday, May 5, at 8 p. m. in Crowe's Hall.

The prizes for the coupon contest are, now on exhibition in the Overland Store window. They are fine prizes and well worth going after.

Mr. G. L. Oliver, formerly connected with the McCoubrey & Peterson general furnishing store in Calgary, has been engaged in Mr. Hild's store here. Mr. Oliver has had a wide experience in this line of business both in Canada and the larger cities across the line.

No doubt, we are on account of so many other attractions last Tuesday evening that the lecture given in the Express Theatre by Rev. Morrow, of Medicine Hat, was not as well patronized as it should have been. Those who were present, however, thoroughly enjoyed the evening's entertainment.

Messrs. Blaser, Lockwood and Wheeler, who have been down in Harro, Mont., inspecting their gas wells, returned on Wednesday and brought back with them their drilling outfit and crew. The outfit will be started to work at once to drill a new gas well here near the new hotel and shoe factory.

An interesting billiard tournament is now in progress in town between representatives from England and Scotland. Two games have already been played; the Englishman winning.

We first and the Scotchman the second. The final game will be played in Crowe's billiard room on Saturday night. The contest, says Mr. Blaser, Hild and Baird for Scotland and Messrs. Goodison and Jackson for England.

The Overland Departmental Store has added three members to its staff of salesmen. This was a most necessary owing to the store's increasing business. The new members are: Miss Sam, stenographer; Miss McLaren, who will help Miss Fraser in the ladies' department; and Mr. H. Steward, who will take charge of the ice cream parlour. Miss McLaren's mother and grandmother accompanied her and will reside here in future. It certainly is a promising outlook for Redcliff's future growth to have people come here three generations at a time.

Most anyone can build a brick incinerator in their back yard, in which all papers and garbage can be cremated and disposed of in a sanitary way. Some are already in use by the good housekeepers of the town, and have proved efficient and economical.

The ladies of the Altar Society in connection with the Catholic Church will give a dance in Maple Hall on Wednesday, May 6. Admission 17.50 per couple. Ladies unaccompanied 50c. All are welcome.

The T. A. Hicks' general furnishing store has a novel display in the window this week. A mother hen with a big family of chicks occupying a prominent place and surrounding them is a fine display of straw hats. Presumably the inference is that big hats they were, like the chickens, hatched. And again, like the chicks, a small bill takes each hatchling.

The new cigar factory built by Mr. Louis Rosin is now complete, and many of the local business men have called to sample the excellent cigars Mr. Rosin makes up for his visitors. If the local consumers show the appreciation of the quality of the new Redcliff cigars desired, there will be about forty cigar makers employed at the factory within a short time. Mr. Rosin expects to have the factory in operation in a week or so.

A runaway team caused some excitement on Broadway last Saturday. In their mad dash they ran into a telephone post near Elliott & Lang's barn and broke it off near the ground. A young girl was in the rig at the time and was thrown out, but was glad to announce was not seriously injured.

In the report of the football game played in Medicine Hat last Saturday

PUBLIC NOTICE.

WE, the undersigned contractors and draughtsmen of Redcliff, have arranged the following tariff of prices for the getting of D.M.A. and will adhere strictly to same:

DRAYING—Five cents per 100 pounds, with a minimum charge of 25 cents.

Excavating, SLIP WORK—From 3 cents per foot up.

Excavating, SLIP WORK—From 60 cents to 75 cents per yard.

Wagon work from 50c. per yard up.

TEAM WORK—\$1.00 for first hour and from 60c. to 70c. for each additional hour.

We feel that the foregoing prices will appeal to the public as being fair and equitable. They are the same prices as prevail at a year ago, and as our horses were idle all winter the public will understand there is no danger of our getting rich too quickly.

C. E. LYSBURN, MART FLEMING, ELLIOTT & LANG, J. G. COBURN, R. E. WHITE, H. H. HUBB, C. G. BUCHHEIT, ROBERT ROWAN.

between the Redcliff team and the Hat Moose Club, the News detects considerable spare-telling of the poor players on the Redcliff team; and says they have to get in a lot of practice to keep them from occupying last place in the league. It seems to mean what the News says about the Redcliff team is true the Medicine Hat "Moosemen" can't be very much better, as they only scored one goal and that within a few minutes of the finish.

Mr. P. R. McElhin, President of the Lake of the Woods Milling Company, and Mr. Matheson, general manager, passed through here last Saturday. Mayor Ross tried to get these officials to stop off and see our town, but as this was impossible owing to their being in a hurry, the Mayor got the assurance from Mr. Matheson that he would pay Redcliff a visit on his return in about ten days' time.

Mr. Redmond, Mayor of Maple Creek, and Mr. McNeill, also of

UNCLASSIFIED ADS.

DRESSMAKING and Ladies' Tailoring. Mrs. Sommer, First Avenue corner 5th Street, in Sparks Apartment Block.

LOST—Strayed from its home, near Rolling Mills, tan pup, six weeks old. Finder will please leave at my office, or third house south of Rolling Mills.

Maple Creek, were the guests at the Laurel Hotel last Friday and Saturday. These men were to greatly impressed with Redcliff's prospects for the future they invested in some real estate and are seriously considering moving here to reside.

Keep in mind the Entre Nous dance to be held in Palace all to-night.

Houses to Rent. Well situated, rates very reasonable. Gladly accept spot application. A. J. Nicholson, phone 57; office on Broadway.

HOWARD Railroad Watches (over-riding) are officially certified and stamped by the time inspectors of one hundred and forty of the leading railroads of America. Better than that, their daily performance is that they are more accurate than the most exacting railroad requirements. The balance-wheel of the Howard Watch is made of special hardened steel and will not knock out of time with the jar and vibration of railroad service. Howard watchmakers make and adjust every Howard watch to the exact time of the factory and stand in its own case. Please check your time—railroad models \$50 to \$100. Let us show you this distinctive watch.

Practical Watchmaker, Jeweller, Engraver and Optician. Issuer of Marriage Licences.

If You Want Your BUILDING Constructed at Reasonable COST See K. O. Rodding

General Contractor and Builder Plans Drawn & Estimated 104 4th St. S. E.

The Master Grocer "Says":

Some people eat meat only once a day, but either vegetable or fruit you must have on your table three times a day.

It is important, therefore, that you have the very freshest of vegetables and finest of fruits to eat. You will find a big supply of "perishable" goods at our store.

We also keep the best brands of canned vegetables and fruits. Buy them, try them, and you will come again for them.

FRESH FRUITS and VEGETABLES

Cucumbers
Lettuce
Onions, Green
Tomatoes
Oranges

SILKSTONE

No Matter—It Washes!

This wall was decorated with Silkstone Flat Wall Colour—a beautiful paint which gives the effect of grain wallpaper—any apparent damage done to it can be easily repaired at the cost of only a few minutes' effort. If it gets dirty, wash it with soap and water. If it gets chipped or cracked, repair with plaster of paris and retint with Silkstone—you can always get Silkstone, you can always match Silkstone colours—no faded wallpaper to match up with, even if you could find the pattern.

SILKSTONE

Flat Wall Colours

"Smooth as Silk—Hard as Stone"

take the place of wallpapers and kalomine. A splendid finish for burlap, plaster and metal walls and ceilings—in 24 colours and white—suitable for all interiors. Can be applied by anyone.

Ask for Colour Card and Booklet —they are full of valuable suggestions.
